Cover Girl

N6099Q Is probably one of the most highly modified M20C's anywhere. It's proud keeper is Capt. Ron. Deering, USN Ret. Interestingly, Capt't Ron was Vice Commander of our Atlantic Trident Submarine Fleet..

This Months Cover Girls

Having something in common, these far flung Mooneys all came together over the Gulf of Mexico for this unique formation shot. One MOA staffer terms this, "3 In The Green". Owners are from top to bottom, Dr. William Woods, from Missouri, Robert Pabian from Augusta, GA., and Jack Thompson from Arizona. Note: Correction from last month's cover: The proud owner of last months Cover Girl, N6099Q is Ron Deering, USN Ret now of Georgia who informs us his official title while in he U.S. Navy was; "Strategic Operations Officer for the Commander Submarine Group Ten.", not the "Vice Commander" as we previously stated. Sorry, Ron but your highly modified Mooney M20C is still beautiful.

This Month's Cover Girls

Something Old, Something New, Something Borrowed, Something Blue... This month's bevy of Cover Girls fits that 'ole wedding myth exactly. The "Something Old" and "Something Borrowed" is MOA's Contributing Editor Dennis Shattuck's former trusty steed, a 1963 M20C. Dennis hails from San Clemente, CA and has owned N6779U for over 30 years! Congrats Dennis. The "Something New" and "Something Blue" is a brand new blue Ovation II borrowed from its proud new owner, Michael Fleisher, as flown and furnished by David Monacell from ASI-Aero Service South, A Mooney Marketing Center based in Naples, FL. Thanks to you both for this month's unusual Cover Girl formation.

This Month's Cover Girl(s): Santa's Fastest Sleigh

One of this month's Cover Girls (the mechanical one) is owned by Bob Williams from Anthem, AZ who has owned this 1968 M22 Mustang for 6 years. Bob recently rebuilt the engine and is in the midst of having it fully restored at Coy Jacob's Mod Squad. Interestingly, this particular Mustang was previously owned by a CA based pharmaceutical entrepreneur who gained disfavor in certain quarters and managed to have it impounded at one time by some obscure three letter government types. With all that behind it, Bob says it may even be for sale now as it is currently undergoing a restoration process. Interested parties need to write Santa at sales@mooneymart.com

This month's *other Cover Girl* is none other than super cute Santa's Helper Deni Moore a (former cheerleader no less) who hails from Lafayette, ID. You may note that interesting sack of Christmas Joy in Deni's sack contains a gas powered, flying R/C full scale model Mooney which boasts operable landing gear and flaps etc.
